

PAST PUPPY BUYER REVIEWS

Below are actual past puppy buyer reviews.

Where to begin... Sherri and I have both wanted a great dane since we were kids and now that we have the time and space, we decided to go ahead and start searching for one. Two months of searching and our heads spinning from all the breeders and websites out there...I am so very thankful that our search landed us to LOOKOUT DANES!! As soon as I spoke with Julie I knew that we had finally found the perfect breeder. I remember the evening so vividly...I filled out the application online and about 20 minutes later my phone rang. It was Julie and not only did she answer our many, many questions...she made sure that we were ready for the commitment of raising one of her pups as well, which not many breeders care to do. From the moment we had decided to go ahead and pick out a pup, Julie became our extended family. If we had a question about what type of food, how much, or anything at all...Julie answered everything completely and with much detail. There was never a time that I would call or email her and she did not respond within, what seemed like, minutes. We are so very grateful for all that she has shared with us and did for us. Brewski was just the best puppy from day one. He knew his name, how to sit and amazingly, he even waited patiently while we prepared his meals. He wouldn't even come into the kitchen area or swarm around us like we thought dogs do?! :) He has the best manners and that doesn't just happen, it is obvious that Julie pays attention to and helps have her pups grow and learn in a patient and loving environment. He had only ONE accident in the house since we got him and that's only because we missed his signs of telling us he had to go! What a smart, gentle, loving puppy we have today and there's no doubt it's due to Julie helping him during his critical stages of learning. I can't say enough about our wonderful experience with Julie and Lookout Danes...there's no doubt we will be connected as "family" for life. I will continue to get future pups from Julie and highly recommend Lookout Danes to all who ask about our amazing puppy! Most people that meet Brewski, who would never have thought about getting a Dane, reconsider after spending even only 5 minutes with him. Our thanks and credit for him go to Julie and her family, we can't say thank you enough! We have such a cool pup and he makes heads turn everywhere we go. Not only is he a beautiful puppy, he is so sweet and loving....thank you a thousand times!! Wendy & Sherri Providence, RI

Julie, It's been comforting to know from who and where our puppy came from because now we can sit back and enjoy every minute of Lili joining our family. Unlike some breeders who ask outrageous sums of money for puppies (yet give little or no care) then pass nightmares on to the new owners we have no worries about important health issues or temperament problems. Lili is happy and healthy and growing right before our eyes. She has a wonderful personality and keeps us in stitches as she learns and explores the world around her. The best part is when her tail wags just because she's happy to be with us. If we had tails ours would be wagging too! Hope you enjoy the pictures. Jeff and Patty

Julie, How do you make the time to deal with new parents like us? Your amazing and greatly appreciated!!! Oh I hope Lili looks like her Dad he's absolutely gorgeous! I've looked at all the pic's on your site (before we decided to get Lili) and many times since...our way of bonding with her. Your Danes all look so happy and content in the pic's and video's that that really helped us make the decision of where and who to purchase a pup from. The anticipation of her arrival is sometimes overwhelming a bit like being a kid again with Christmas just around the corner. It's so exciting!!! Our greatest concern is we want to do everything right for her! If you have any advice to pass on to us it would be greatly appreciated. Thanks again for ALL the time you spend doing ALL that you do!!!!!!! KUDOS!! Patty

Winston : He is my baby... Winston is the most vocal dog I have ever had. when he plays with his little sister Sassy he is always talking to her. He is a big baby and love to cuddle in bed with me. He has been wonderful with the babys and the kids. he has not met anyone he doesn't like. He can be a little stubborn at times but other than that he has been a joy. Like most danes he is a big chicken his feeling get hurt and he will look sad if you yell at him. Of course we are still doing the puppy things like chewing things up. last week he threw up a sock, toy, and a whole paper towel... He is very Handsome and has one ear that curls over his eye sometimes... He is our baby boy and we love him so much...Oh one more thing he is very noisy if I am working in the yard or house he has to be right next to me watching me... which sometimes drives me crazy.... Joan Mandeville, La.

I love my baby girl to death. She has been such a joy to raise. She is my and always will be "my little tiger lily", because she looks like a tiger. Her real name is Mia Grace and she does come to Gracey Lou, Tiger Lily and of course Mia. The whole experience has been a great experience. She is a joy and a gentle giant. She is 33 1/2" at the shoulder and I can barely feel her give me a kiss because she is just so gentle. The only bad thing about my baby girl is I got her for my husband and she is a mommy's girl. If she's playing and another dog is to aggressive or she gets scolded for something or even if she gets scared, she runs to me and jumps up on my back, wraps her legs around my hips and hides behind me looking around me. So I guess if that is her down fall, I love it. She adores me and would protect me with her life. I would love to get another, the only problem is they don't live as long as you would like them to. They need to be a full time fixture in your life. Hope all of the babies are doing well and like i said, I always have room for more. Jody VincentTionesta, PA

The whole experience from the moment we decided to get another Great Dane has been memorable. Julie kept me posted from the time Gina went into labor until the day we picked her up. She is such a joy to our family. I could tell Julie truly cared for the pups like she was going to keep them all to herself. Mia knew her name, how to sit and how to shake within two days of having her home. Julie truly is a great breeder, a great person and a great friend. She definitely knows what she is doing. Thank you so much for bringing Mia Grace into our life. P.S. You were correct about the attitude...she definitely tries to rule the roost. We love her!!! Love Jody and Michael Tionesta, PA

Oh what to say about Julie and Lookout Danes, Love them!!! Since the very first phone call between Julie and myself I could see us hanging out,(if I didn't live in Langley, BC!) and becoming good friends. All my questions were answered with direct and complete answers. The two new additions to my family are wonderfully full of energy. They get along with my children and our Rotti, they play and play and play. I can't wait to send pictures of them as they grow bigger as I'm an avid picture taker, so I hope I don't overload your hard drive when I send them all to you. My experience has been a very positive one and in the future if get my hands on more acreage I will do business with her again. Thank you Julie!!!! Danielle Langley, BC

Julie, Yes, she has gotten big. She has been such a joy to our family. We couldn't have asked for a better addition. She is such a sweet baby. (That's what she thinks she is) We call her our little Clydesdale. She sounds like a horse when she comes down the stairs. She has adjusted well to the new environment and she gets along wonderfully with our Chihuahua and 2 kittens. The family absolutely loves her. She IS a very happy pup. We're anxious to see how she's going to be with a Christmas tree in the house. I can see it now! LOL!!! She is such a curious baby. Anyway, I just thought I'd give you a little update on your little girl and thank you once again for allowing her to be a part of our family. I will keep the pictures coming! Have a great day, Julie!
